Use minimum 90°C supply conductors.

**SAVE THESE INSTRUCTIONS!**

Install the Fixture

IA

- 1** Secure the mounting plate to the junction box.
- 2** Feed the fixture wires through the shade, shade ring, and knurled nut in that order, then secure them together by screwing the knurled nut onto the socket assembly nipple.
- 3** Feed the fixture wires through the fixture base and screw it onto the socket assembly nipple.
- 4** Connect the fixture to a suitable ground in accordance with local electrical codes.
- 5** Connect the white fixture wire to the neutral power line wire with a wire nut.
- 6** Connect the black fixture wire to the hot power line wire with a wire nut.
- 7** Neatly tuck the wiring into the junction box, place the fixture base onto the mounting studs, and secure it in place by screwing the cap nuts onto the studs.
- 8** Screw the lamps into the sockets. Refer to the label on the socket for max wattage information.
- 9** Place the diffuser, cap, and washer onto the lower socket assembly nipple, then secure them in place by screwing the hex nut onto the nipple.
- 10** Place the cup onto the lower socket assembly nipple and secure it in place by screwing the desired finial onto the nipple.
