DIFFUSER

**1**     Secure the mounting plate to the junction box.

**2**     Connect the fixture to a suitable ground in accordance with local electrical codes.

**3**     Connect the white fixture wire to the neutral power line wire with a wire nut.

**4**     Connect the black fixture wire to the hot power line wire with a wire nut.

**5**     Neatly tuck the wiring into the junction box, place the fixture base onto the mounting studs, and secure it in place by screwing the cap nuts onto the mounting studs.

**6**     **For models with lamps,** screw the lamp(s) into the socket(s). Refer to the label on the socket for max wattage information.

**7**     Install the diffuser by screwing it into the fixture base.
