MOUNTING SCREW

1. Temporarily secure the mounting plate to the junction box and mark the location of the anchors, then remove the mounting plate.
2. Drill appropriate sized holes at the marked locations and install the anchors.
3. Secure the mounting plate to the junction box and screw the anchor screws through the anchors.
4. Connect the fixture to a suitable ground in accordance with local electrical codes.
5. Connect the white fixture wire (square and/or rigid) to the neutral power line wire with a wire nut.
6. Connect the black fixture wire (round and/or smooth) to the hot power line wire with a wire nut.
7. Neatly place all the wires into the junction box, place the fixture base onto the mounting plate, and secure it in place using the mounting screws.
8. Install the shade into the fixture base, install the top cover and secure them in place with the top cover screws.
